

## Semi-Automatic Box Opener JUPI

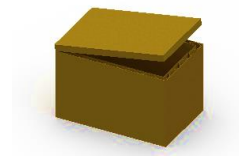

The semi-automatic machine JUPI has been specially developed for small and medium-sized companies in the field of goods and returns receipt.

### opening process

The carton is fed laterally, the cutting system lowered onto the carton and the cutting process triggered for a hinge cut.

### performances

pattern	hinge cut
packages / shift	approx. 1,500 pieces
cycle time	approx. 8 sec. / carton
carton dimensions (LxWxH in mm)	model 444 min. 160 x 140 x 90 max. 400 x 400 x 400
	model 654 min. 200 x 200 x 200 max. 600 x 500 x 420
carton weight	approx. 1 - 30 kg

technology	3 electrically driven cutting axes with one each cutter head
voltage	220 V / 50 Hz
vacuum	no need
working height	80 to 90 cm
size LxWxH	model 444 - 100 x 100 x 210 cm model 654 - 120 x 120 x 210 cm
weight	approx. 150 kg
volume	below 70 db (A)
patent registration	DE 10 2019 101 079.9

**Application** JUPI has been designed for cutting dry corrugated board. Unsuitable are plastics, foils, rubber, wood, glass, metal, textiles, leather, etc. - this does not include the warranty.

### basic equipment

ball plate incl. 2 fixed stops for fixing the carton

### extensions

A - ball table with lowerable stopper and footswitch

B - lowerable stopper and driven conveyor rollers for automatic carton transport and footswitch

C - 1.5 m each inlet / outlet conveyor for delivery and removal of the boxes

*Options A and B can only be installed as an alternative. - All prices excl. VAT.*
